

A Glass Act

You never saw the rock that hit your windshield, but the evidence is clear: There's a chip or crack in the glass that wasn't there before. Even if it's just a small nick, you should have it repaired immediately to maintain structural integrity. That's because the windshield helps minimize roof collapse during a rollover and also allows the passenger-side air bag to function properly. For MetLife Auto & Home[®] customers, the repair process is quick and easy.

- Repairs take fewer than 30 minutes, are friendlier to the environment than replacement, and are just as effective.
- MetLife Auto & Home will waive your deductible, if you choose repair over replacement.*

It's easy to report damage and get a non-obligatory referral to a qualified auto glass specialist – just call MetLife Auto & Home 24 hours a day. For more details and free auto quotes, call **1 800 GET-MET 8** (1-800-438-6388) today.

*See your policy for restrictions.
